SUPPLEMENTARY INFORMATION:

Title: FERC-592 (Standards of Conduct for Transmission Providers; and Marketing Affiliates of Interstate Pipelines)

OMB Control No.: 1902-0157

Type of Request: Three-year extension of the FERC-592 information collection requirements with no changes to the reporting requirements.

Abstract: The Commission uses the information maintained and posted by the respondents to monitor the pipeline's transportation, sales, and storage activities for its marketing affiliate to deter undue discrimination by pipeline companies in favor of their marketing affiliates. Non-affiliated shippers and other entities (e.g. state commissions) also use information to determine whether they have been harmed by affiliate preference and to prepare evidence for proceedings following the filing of a complaint.

18 CFR Part 358 (Standards of Conduct)

Respondents maintain and provide the information required by Part 358 on their internet websites. When the Commission requires a pipeline to post information on its website following a disclosure of non-public information to its marketing affiliate, non-affiliated shippers obtain comparable access to the non-public transportation information, which allows them to compete with marketing affiliates on a more equal basis.

18 CFR 250.16, and the FERC-592 log/format

This form (log/format) provides the electronic formats for maintaining information on discounted transportation transactions and capacity allocation to support monitoring of activities of interstate pipeline marketing affiliates. Commission staff considers discounts given to shippers in litigated rate cases.

Without this information collection:

- the Commission would be unable to effectively monitor whether pipelines are giving discriminatory preference to their marketing affiliates; and

- non-affiliated shippers and state commissions and others would be unable to determine if they have been harmed by affiliate preference or prepare evidence for proceedings following the filing of a complaint.

Type of Respondents: Natural Gas Pipelines

Estimate of Annual Burden¹: The Commission estimates the total Public Reporting Burden for this information collection as:

FERC-592: Standards of Conduct for Transmission Providers; and Marketing Affiliates of Interstate Pipelines				
Number of Respondents (A)	Number of Responses Per Respondent (B)	Total Number of Responses (A)x(B)=(C)	Average Burden Hours per Response (D)	Estimated Total Annual Burden (C)x(D)
85	1	85	116.62	9,913

The total estimated annual cost burden to respondents is \$684,092 [9,913 hours ÷ 2080² hours per year = 4.76586 * \$143,540/year³ = \$684,092]

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the

¹ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, reference 5 Code of Federal Regulations 1320.3.
